DESIGNER VANITIES: CHOREOGRAPHED TO PERFECTION

Quantra has just taken the toughest, most beautiful quartz in the world to yet another level: with a stunning designer collection of quartz vanities, choreographed to perfection.

It has been an aesthetic and technical challenge without precedent and Quantra is proud to have achieved this with its own proprietary technology... with panache. Taking one of the hardest substances known to man and stylishly fashioning it into seamless, smooth-as-silk bathroom vanities that are choreographed to perfection.

A complete series of the most seductive, beguiling minimalist designs that deliver extreme functionality are now yours, with an exceptionally hygienic, easy-to-clean, non-porous finish. Organically incorporating spaces for toiletries and accessories.

A completely joint free, 'flow-easy' product with 'Greenguard Gold' certification for its ecologically-sensitive properties and a rock-solid 10-year warranty.

By eliminating joints and creating a fluid, sculpted design, all visual distractions are deftly erased.

Instead, its functionality is multiplied and the clutter of wooden cabinetry are smartly minimised, evoking a sense of extreme hygiene.

Instead of the usual monochromes that come with ceramics and resin based alternatives, you now have a vast choice of nature-inspired surfaces. Which means you can not only match or coordinate our vanity sets with each other but with our wall claddings as well.

Above all, the unmatched strength and durability of quartz is now reinforced by the seamless design, with no joints to come apart ever. Ensuring no dirt or stains collect in corners and crevices.

The surfaces are finished to perfection and are completely non-porous.
